---

## SUMMARY

CS(AI/ML) student with hands-on experience in building real-world AI/ML and web-based applications. Skilled in Python, ML algorithms, and full-stack development. Currently seeking impactful internship opportunities where I can apply and grow my technical skills.

---

## WORK EXPERIENCE

### IT Intern, IndusTech Solutions

Aug 2022 - Feb 2023

During my 6-month internship at IndusTech, I worked on both IT support and digital marketing initiatives. I assisted in troubleshooting hardware and software issues, setting up network configurations, and managing databases. Additionally, I helped optimize digital tools for marketing campaigns, gaining hands-on experience in technology-driven marketing strategies.

---

## EDUCATION

### Bachelor of Engineering (Computer Science - AI&ML)

Oct 2023 - Present

Muffakham Jah College of Engineering and Technology

- Third-year B.E. student specializing in AI and Machine Learning.
- Actively developing projects using Python, ML algorithms, and full-stack web technologies.

### Diploma in Computer Science

Aug 2020 - Aug 2023

Quli Qutub Shah Govt. Polytechnic

- Completed a Diploma in Computer Science with strong fundamentals in programming, data structures, and software development.

---
